

MCP TEST DOCUMENT — SAFE TO DELETE

This PDF exists only to exercise the write operations of mcp-paperless-ngx against a live Paperless-ngx instance. It carries no real data.

Fixture: sample-invoice.pdf

Purpose: end-to-end write test (upload, tag, note, share, delete)

Correspondent: ZZ MCP Test GmbH

Invoice number: TEST-0001

Invoice date: 2024-03-15

Amount: 42.00 EUR

The write test creates every object it touches, prefixes them with 'zz-mcp-test', and removes them again at the end. If you find leftovers with that prefix, a test run was interrupted and they can be deleted safely.
